Availability of PatentIn Computer Program Training

1. Training In Washington, D.C.
Friday, Aug. 20, 1993 and Friday, Sept. 10, 1993.

The Patent and Trademark Office (PTO) has developed a computer program, called PatentIn, that will facilitate compliance with the Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures (sequence rules 37 CFR 1.821 through 1.825). (Final rules were published in the *Federal Register*, 55 Fed. Reg. 18230 (May 1, 1990), and in the *Official Gazette*, 1114 O.G. 29 (May 15, 1990).)

Two one-day training sessions will be held on the use of the PatentIn Computer Program on Friday, Aug. 20, 1993 and Friday, Sept. 10, 1993. Each session will be conducted from 10:00 am to 4:00 pm. The training will be held at the Department of Agriculture Graduate School Training Facility. The School is located at 600 Maryland Ave., S.W., Washington, D.C. at the L'Enfant Plaza Metro stop.

The training will be hands on, using personal computer equipment and will include (1) the use of PatentIn to prepare the sequence listing file of information, and (2) the use of word processing software to prepare the PatentIn sequence listing file for inclusion as part of the application papers. The class will also include training on the basic file editing and manipulation skills that may be necessary for preparing sequence information for importing into PatentIn.

Because of the limited number of computers available, the class will be limited to no more than 17 participants.

Requests to attend the class should be made in writing, addressed to the Commissioner of Patents and Trademarks; Washington D.C. 20231; Attention: Arthur F. Purcell, Office of the Administrator for Search and Information Resources; Crystal Park Building 3, Suite 702. Requests should include a check for

$100, made payable to the Commissioner of Patents and Trademarks, or an authorization to charge a PTO Deposit Account. Requests authorizing charges to Deposit Accounts may also be sent via facsimile to 703-557-0668.

2. Training On Request.

On request from a sponsoring organization, PatentIn training, as well as training on the sequence Rules, can also be provided by qualified PTO instructors at remote locations under the following conditions:

—A request for such training should be directed to the Commissioner of Patents and Trademarks, Patent and Trademark Office, Washington, D.C. 20231, by the sponsoring organization. The request should reference this Notice.

—Because the number of qualified instructors is very limited, sponsoring organizations normally should submit requests at least three months in advance of the desired training session date and should be flexible as regards scheduling of training sessions.

—If the sponsoring organization is other than a non-profit entity or membership association, e.g., the sponsoring organization is a private company or firm, that organization must specify that the training opportunity will also be made available to individuals not employed by the company or firm.

—The sponsoring organization must agree to pay for all travel related expenses of the instructor(s) plus a fixed fee of $500 per instructor per instruction day to cover salary, overhead and training materials costs.

—The sponsoring organization must provide the physical facilities and any equipment necessary to conduct the training. Since these will vary according to the circumstances and number of trainees, such arrangements should be made in consultation with the instructor.

Any questions about the sequence rules or this notice should be directed to Arthur F. Purcell, by telephone at (703) 557-1687 or by FAX at (703) 557-0668.

Patent and Trademark Office
37 CFR Part 1
Patent Interference Practice - Separate Patentability of Claims

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking
Summary: The Patent and Trademark Office (PTO) proposes to amend its rules of practice in patent interference cases. *In re Van Geuns*, interpreted patent interference rules in a manner different from the manner in which the rules are interpreted by the Commissioner. The Federal Circuit held that the rules authorize a party to argue the separate patentability of claims that the PTO designates as corresponding to a single count. Under PTO rules, however, every claim designated to correspond to a count shall be directed to a single inventive concept. PTO proposes to amend the interference rules to specifically overcome the Federal Circuit's interpretation of the rules in *Van Geuns*. PTO proposes to specify that unless a party files a preliminary motion to contest the designation of a claim as corresponding to a count, the party shall be deemed to have conceded that all claims designated as corresponding to a count are unpatentable if any claim designated as corresponding to the count is held to be unpatentable and may not argue to an examiner-in-chief or the board the separate patentability of claims designated to correspond to the count. PTO also proposes to specify that when an examiner-in-chief in an interference becomes aware of a reason why a claim corresponding to a count may not be patentable, the examiner-in-chief may enter an order notifying the parties of the reason and set a time within which each party may present its views, which may include a preliminary motion. The rules would further specify that an opponent may file an opposition to any preliminary motion and that the party would file a reply to an opposition.

These rules will apply prospectively except when an examiner-in-chief notifies a party in an interference to the contrary. If a party is notified, the party will be given an opportunity to respond regarding the patentability of a count in the interference.
Dates: Comments must be submitted on or before Sept. 24, 1993.
Addresses: Address written comments to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231, marked to the attention of Fred E. McKelvey, Solicitor. Written comments will be available for public inspection in Suite 918, on the 9th floor of Crystal Park II, located at 2121 Crystal Drive, Arlington, Va.
For Further Information Contact: Fred E. McKelvey by telephone at (703) 305-9035 or by mail marked to his attention and addressed to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231.
Supplementary Information: The Patent and Trademark Office (PTO) conducts interference proceedings to determine who, as between two or more applicants for patent or one or more applicants and one or more patentees, is the first inventor of a patentable invention.

A primary examiner determines in the first instance whether the claims in an application interfere with the claims in another application or a patent. When the examiner is of the view that an interference exists, the Board of Patent Appeals and Interferences (Board) is notified. 37 CFR §1.609. An examiner-in-chief, i.e., a member of the Board, is assigned to each interference. The interference is declared by the examiner-in-chief. 37 CFR §1.610(a).

Each separately patentable invention involved in the interference is defined by a count. The count is a vehicle for contesting priority of invention (i.e., who made the invention defined by the count first) and determining the evidence relevant to the issue of priority. *Squires v. Corbett*, 560 F2d. 424, 433, 194 USPQ 513, 519 (CCPA 1977); *Case v. CPC Int'l, Inc.*, 730 F.2d 745, 749, 221 USPQ 196, 200 (Fed. Cir.), *cert. denied*, 469 U.S. 872 (1984); *In re Van Geuns*, 988 F.2d at 1184, 26 USPQ2d at 1058-59 (Fed. Cir. 1993).

Each claim of any application or patent to be involved in the interference is designated to correspond to the count or not to correspond to the count. A preliminary determination is made by the PTO as to which claims should be designated to correspond to the count. The claims that are initially determined to define the same patentable invention as the count are designated to correspond to the count. All other claims are designated as not corresponding to the count. The designation of claims as corresponding or not corresponding provides a starting point in an interference. Under PTO practice, there is a presumption that the designation of a claim as corresponding or not corresponding to a count is correct.

The rules authorize a party to file a preliminary motion to redefine an interference by designating a claim as corresponding or not corresponding to a count. 37 CFR §1.633(c)(3) and (4). Prior to *Van Geuns*, the PTO had interpreted the rules to require a preliminary motion to designate a claim as not corresponding to a count *as a condition* to being able to argue to an examiner-in-chief or the Board that the claim is separately patentable from the other claims designated to correspond to the count. *See Brooks v. Street*, 16 USPQ2d 1374, 1378, (Bd. Pat. App. & Int. 1990); *Flehmig v. Giesa* 13 USPQ2d 1052, 1054, (Bd. Pat. App. & Int. 1989); *Kwon v. Perkins*, 6 USPQ2d 1747, 1751 (Bd. Pat. App. & Int. 1988), *aff'd on other grounds*, 886 F.2d 325, 12 USPQ2d 1308 (Fed. Cir. 1989); *see also Lamont v. Berquer*, 7 USPQ2d 1580, 1582 (Bd. Pat. App. & Int. 1988). In *Van Geuns*, however, the Federal Circuit interpreted the rules differently, stating:

"[T]he position of the Commissioner that claims designated as corresponding to a count stand or fall with the patentability of the subject matter of the count is overbroad."

988 F.2d at 1185, 26 USPQ2d as 1060. The Federal Circuit further stated:

"[W]e conclude that a party to an interference, who has failed to timely contest the designation of claims corresponding to a count, has not conceded that the claims corresponding to a count are anticipated or made obvious [i.e., are unpatentable] by the prior art when the subject matter of the count is determined to be unpatentable for obviousness. The PTO must determine, based n the actual prior art reference or references, whether claims not [designated as] corresponding exactly to the count are unpatentable."

Id. at _, 26 USPQ2d at 1060. The Federal Circuit still further stated:

"The interference rules do not specify whether a party may argue the patentability of claims separately to the EIC [examiner-in-chief] and the board."
Id. at_, 26 USPQ2d at 1060.

The changes proposed to the interference rules are designed to overcome the Federal Circuit's statement.

Subsection (f) of 37 CFR §1.601, as proposed to be amended, would clarify that claims are designated to correspond to a count. The designation constitutes a rebuttable presumption that, with respect to patentability, the claims stand or fall with the count.

Subsection (f) would also eliminate the "but which defines the same patentable invention as the count" language, thereby eliminating the definition of "same patentable invention" in 37 CFR § 1.601(n) from the designation of claims that correspond substantially to a count. The purpose of the proposed changes is to overcome the Federal Circuit's *Van Geuns'* statement that "[i]f a party does not timely contest the designation of claims, there is in effect a concession that all of the designated claims would be anticipated or made obvious if the count were actually prior art." Id. at _, 26 USPQ2d at 1060.

Finally, the definition of a "phantom count" would be revised to clarify that it is unpatentable to the parties under 35 U.S.C. §112.

Subsection (k) of 37 CFR §1.633, as proposed to be amended, would provide that a party who fails to contest, by way of a timely preliminary motion under 37 CFR §1.633, the designation of a claim as corresponding to a count may not subsequently argue to an examiner-in-chief or the Board the separate patentability of claims designated to correspond to a count.

The first sentence of section 1.641, as proposed to be amended, would be redesignated subsection (a) and would clarify that the Examiner-in-Chief would notify the parties by order of the unpatentability of claims designated as corresponding to a count. The word "corresponding" would be changed to "designated to correspond" to conform with the proposed revision to subsection 1.601(f). Proposed subsection (a) would also indicate that responses to the order may include argument and any preliminary motion permitted under §1.633(c), (d), or (h) as well as any supporting evidence.

A new subsection (b) would be added to section 1.641 that would specify that the opposition and reply practice under section 1.638 applies to a preliminary motion filed in response to the Examiner-in-Chief's order under subsection (a) of this section.

Finally, the last sentence of the current section, 1.641 would be redesignated as subsection (c) and would include a reference to the preliminary motions under section 1.633 permitted under the revision to subsection (a) of this section.

These rules will apply prospectively except when an examiner-in-chief notifies a party in an interference to the contrary. If a party is notified, the party will be given an opportunity to respond regarding the patentability of a count in the interference.

OTHER CONSIDERATIONS

The proposed rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these proposed rule changes will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these proposed changes would be to clarify the procedure for arguing the patentability of claims corresponding to a count in patent interferences and thereby eliminate any confusion, delay, or redundancy that might result from misinterpretation of the current rules.

The Office has determined that this proposed rule change is not a major rule change, under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers; individuals; industries; Federal, state or local government agencies; or geographic regions. There will be no significant effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The rule change will not impose a burden under the Paperwork Reduction Act. 1980, 44 U.S.C 3501 *et seq.*, since no record-keeping or reporting requirements within the coverage of the Act are placed upon the public.

List of Subjects in 37 CFR Part 1

Administrative practice and procedure, Courts, Inventions and patents.

For the reasons set out in the preamble, it is proposed to amend 37 CFR part 1 wherein removals are indicated by brackets ([]) and additions by arrows (▶◀) as follows:

PART 1 - RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR part 1 would continue to read as follows:
Authority: 35 U.S.C. 6, unless otherwise noted.

2. Section 1.601 is proposed to be amended by revising Paragraph (f) to read as follows:

§1.601 Scope of rules, definitions.

* * * * *

(f) A "count" defines the interfering subject matter between:
(1) two or more applications or
(2) one or more applications and one or more patents.

When there is more than one count, each count shall define a separate patentable invention. Any claim of an application or patent [which] ▶that is designated to◀ correspond[s] to a count is a claim involved in an interference within the meaning of 35 U.S.C. 135(a). A claim of a patent or invention ▶that◀ [which] is identical to a count is said to "correspond exactly" to the count. A claim of a patent or application ▶that◀ [which] is not identical to a count [,but which defines the same patentable invention as the count,] is said to correspond substantially" to the count. When a count is broader in scope than all claims ▶that◀ [which] correspond to the count, the count is a "phantom count." A phantom count is not patentable to any party under 35 U.S.C. 112.

* * * * *

3. Section 1.633 is proposed to be amended by adding a new paragraph (k) to read as follows:

§1.633 Preliminary motions.

* * * * *

(k) A party who fails to contest, by way of a timely filed preliminary motion under §1.633(c), the designation of a claim as corresponding to a count may not subsequently argue to an Examiner-in-Chief or the Board the separate patentability or the lack of separate patentability of claims designated to correspond to the count.

4. Section 1.641 is proposed to be revised as follows:

Unpatentability Discovered by Examiner-in-Chief

▶(a)◀ During the pendency of an interference, if the examiner-in-chief becomes aware of a reason why a claim ▶designated to correspond◀ [corresponding] to a count may not be patentable, the examiner-in-chief may [notify] ▶enter an order notifying◀ the parties of the reason and set a time within which each party may present its views, ▶which may include argument and any appropriate preliminary motion under §1.633(c), (d), or (h), including any supporting evidence◀.

▶(b) If a party timely files a preliminary motion in response to the order of the examiner-in-chief, any opponent may file an

opposition pursuant to §1.638(a). If an opponent files an opposition, the party may file a reply pursuant to §1.638(b).◀

▶(c)◀ After considering any timely filed views, ▶including any timely filed preliminary motions under §1.633, ◀ the examiner-in-chief shall decide how the interference shall proceed.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections. All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
